

HK-1: House Knob Installer

Features & Benefits:

- *Designed for the installation and removal of polymer and ceramic (porcelain) house knobs.*
- *For polymer house knobs, use the 1/2" drive and an impact driver, ratchet, or wrench.*
- *For ceramic (porcelain) house knobs, use with a 1/2" square drive to 7/16" hex drill adapter when operating with a drill.*
- *Manufactured from high-strength 40Cr steel with a durable chrome-plated finish for superior strength and corrosion resistance.*
- *Compact design fits easily in tool aprons, tool pouches, socket organizers, or your pocket for quick access on the job.*
- *Securely holds polymer knobs in place, allowing for easy one-handed installation.*
