

## PC-1: MADI Pole Cradle & Outrigger Pad

### Features & Benefits:

- Use as a stiff leg pad or pole cradle
- Pole can be rolled while in cradle to drill and frame all sides
- Allows for ground framing reducing the risk from falling tools
- Constructed of fiberglass reinforced nylon for weight reduction and maximum durability
- Allows all crew members to help frame versus just those in the bucket
- Weight rating – up to 12,000 lbs. pole weight
- Easily stores in standard jack / stiff leg pad locations
- Rope handle for easy transportation

Pole Cradle

Stiff Leg Pad

Compact Storage

**24" x 16" x 3-1/2"**
